Interview Sessions Across the Partnership

In January 2025, MareSkill partners carried out interviews with local stakeholders to map skill gaps and identify priorities for future training programs. These conversations are shaping the future of workforce development in the blue economy. [Read more.](#)

Workshop on Designing Effective Training Programs

Held at the University of Zadar, this two-day workshop brought together project partners to exchange best practices and develop strategies for implementing training programs using the MareSkill LMS platform. [Read more.](#)

Quality Aquaculture Pilot Course Kick-Off

In collaboration with ARTI Puglia and the University of Bari, the MareSkill project launched the "Quality Aquaculture" pilot course, offering 50 hours of in-depth training for students and professionals from Italy and Croatia. [Read more.](#)

BLUESLINKS & MareSkill Focus Group

A joint focus group session hosted in Šibenik by the Polytechnic and Argonauta brought together stakeholders from education, government, and marine sectors to exchange ideas, address climate challenges, and build an Innovation Center Network. [Read more.](#)
